Style Guide „Couture”

Grid View
1960 x 1680 px

Product picture*
1000 x 1500 px

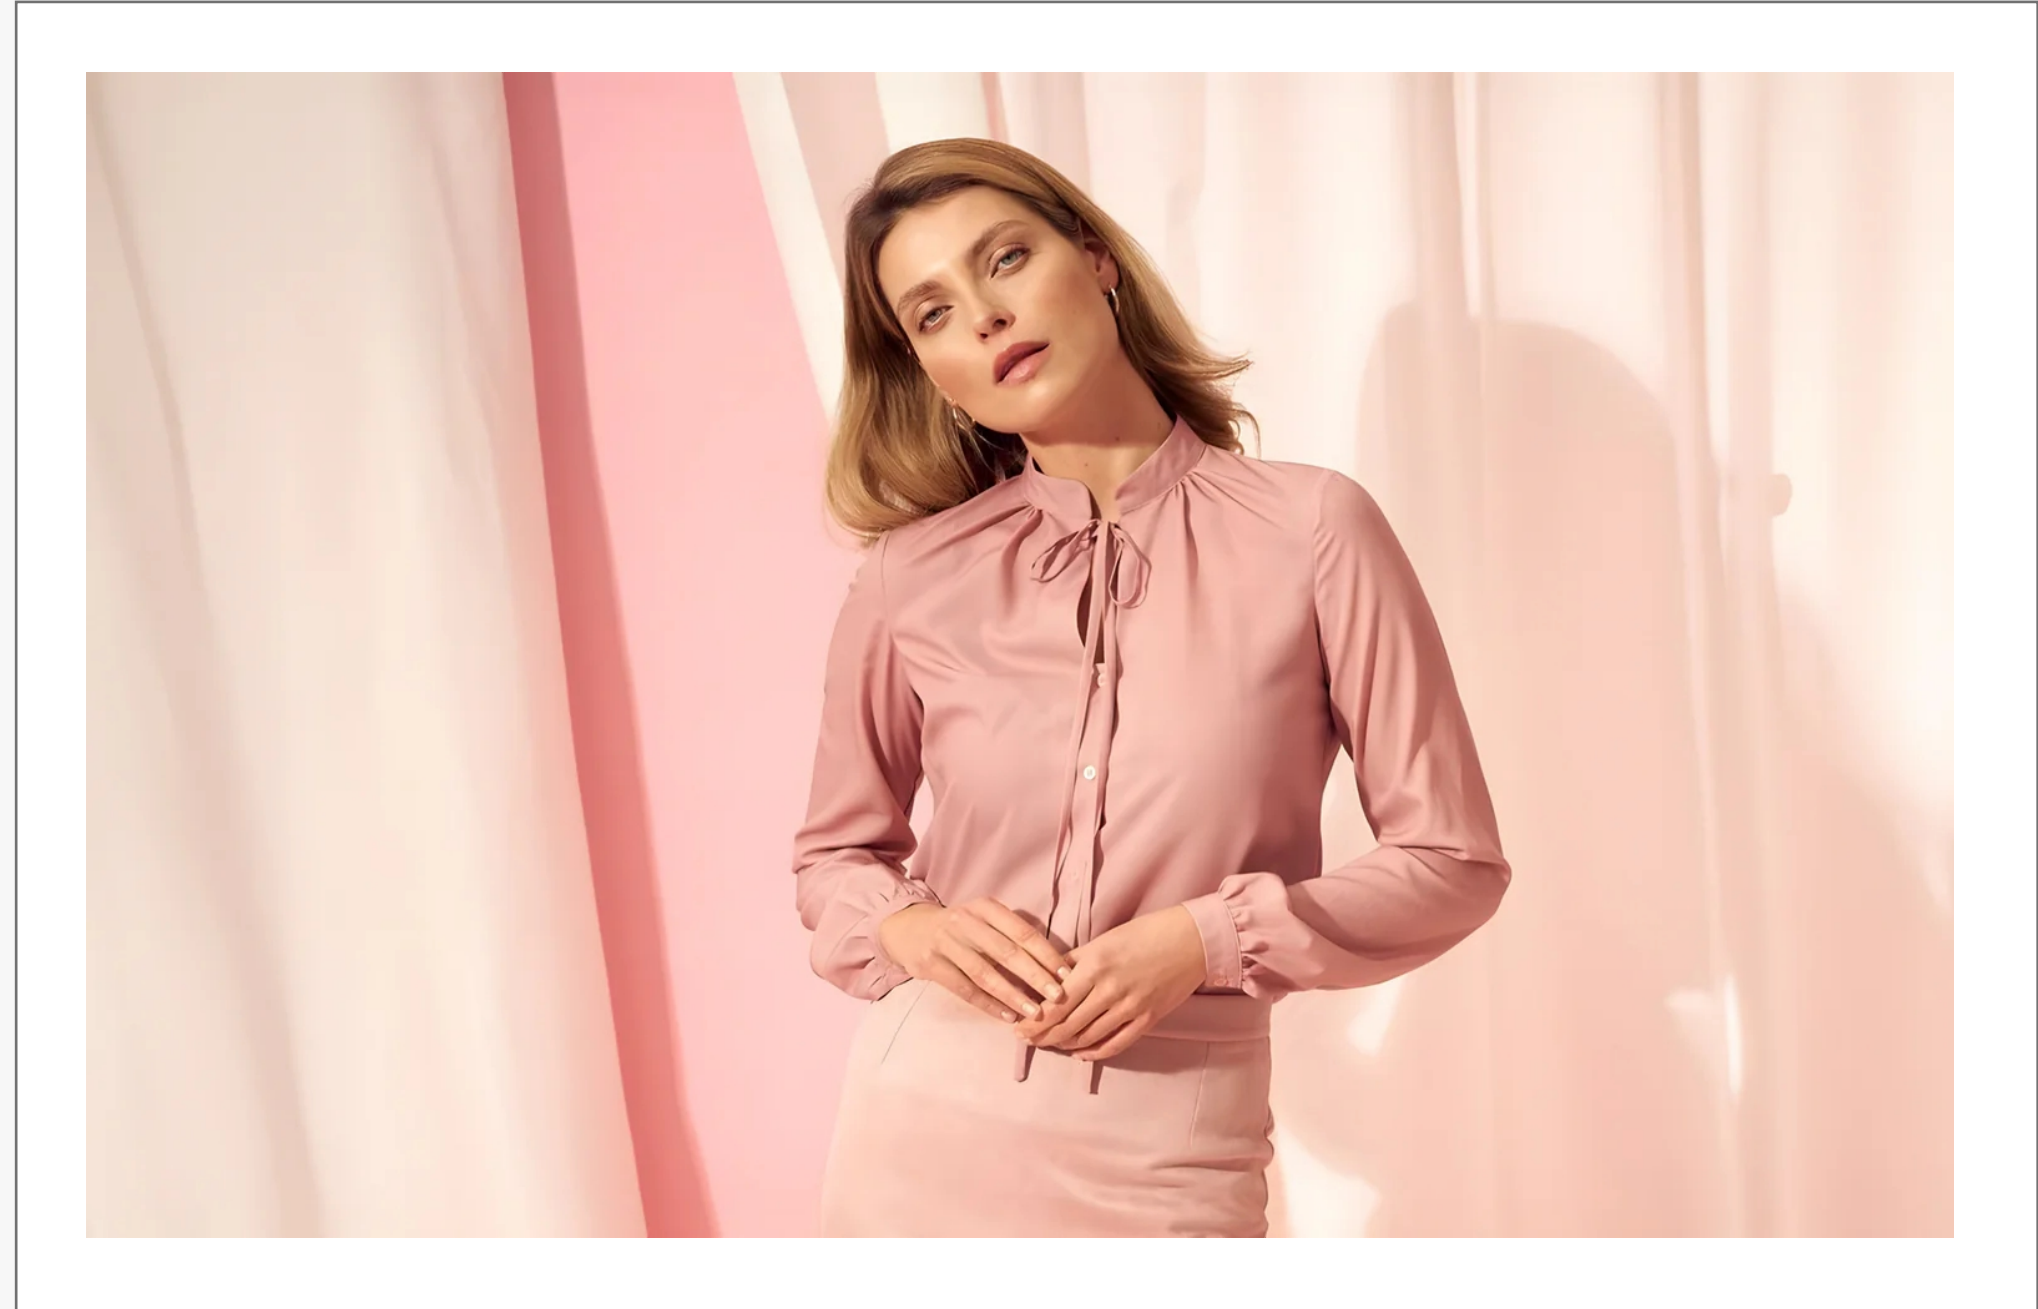

*I recommend preparing photos on a gray background to ensure they look good on the product page.

Minimum resolution for the photos is 1000x1500px. However, I highly recommend using a higher resolution to ensure that when customers use the zoom feature on the product page, all details are clearly visible. Please make sure the images are sharp and of high quality for the best presentation.
